

# Waitangi Angus

## Annual Yearling Sale

Friday 19th September 2008  
12 Noon

On the farm  
Waitangi, Bay of Islands

**55 Yearling Bulls**  
**C10 TB status and BVD vaccinated**

**John and Joss Bayly**  
**Telephone 09 402 7552**  
**[www.waitangianguis.co.nz](http://www.waitangianguis.co.nz)**

Participating Companies:  
PGG Wrightson & Elders Livestock

# Welcome to the Waitangi Angus Annual Yearling Sale.

The Waitangi herd comprises some 330 performance recorded breeding females.

Our stud cows are run under commercial conditions in conjunction with our ewe flock and sheep/beef finishing operations.

All cows and heifers are expected to rear a satisfactory calf annually from 2 years of age or they are culled.

## Conditions of Sale

The sale will be conducted under the conditions of the Auckland stock and station agents association as exhibited at the sale.

Every lot shall be at the risk of the purchaser as from the fall of the hammer.

## Every bull guaranteed to breed

The entry of any bull in this catalogue constitutes a guarantee by the vendor that the purchase price without interest, expenses, cost or damages shall be refunded if a bull proves infertile or incapable of service. Any dispute shall be settled by an arbitrator appointed by the auctioneers. Any complaint must be lodged with the auctioneers in writing within six calendar months from the date of sale. A veterinary surgeons certificate shall be produced by the purchaser when required.

## Health Status

C10 TB status and BVD vaccinated

## Insurance

If transit or annual insurance is required, such cover can be arranged through the auctioneers.

## Instructions

Purchasers are asked to sign delivery dockets before leaving the sale and to leave full and explicit transport instructions.

## Commission

A 6% commission will be paid to any company/agent who introduces purchasers prior to the sale and makes settlement on their behalf.

## Ease of Calving Index

The ease of calving index ranks bulls on their ability to generate profit (per cow mated) when crossed with dairy cows and heifers to produce dairy beef progeny. While calving ease is by far the most important profit driver in the index, growth, and to a lesser extent meat yield, also contribute. This index is also a reasonable indicator of a bull's suitability for use over heifers.
